

# HSE Bulletin (Ref.: 16 in 2013)

## Exclusion Zones Keep You Safe

Date of issue: 05 September 2013  
Date of expiry 01/03/2014

---

### Background

#### Exclusion Zones keep you safe

Exclusion zones are a control for protecting workers from hazards such as falling materials during lifting operations, vehicle movements or noise exposure.

Recent incidents show that exclusion zones are not being correctly applied or enforced in some cases.

### Instruction

Those undertaking works are reminded of the need to segregate workers not directly involved in the hazardous activity and apply and enforce exclusion zones where necessary.

If you aren't involved in the activity – keep out!

**Please communicate this alert to your teams, projects and suppliers as appropriate**
