TREASURY MANAGEMENT POLICIES

1 BACKGROUND

- 1.1 The establishment and review of a policy for TfL in relation to Treasury Management is a matter reserved to the Board. This document (including the Treasury Management Policy Statement, Treasury Authorities and Delegations and the Treasury Management Practices) is therefore subject to Board approval.
- 1.2 This document was drafted after taking into account the CIPFA recommendations contained in the Code of Practice and Cross-Sectoral Guidance Notes (the 'Code') issued in November 2011 for Treasury Management in the Public Services, the Fully Revised CLG Investments Guidance issued in March 2010 ('DCLG Guidance'), the Local Government Act 2003, the Capital Finance and Accounts Regulations 2003 (as amended) and the revised CIPFA Prudential Code issued in November 2011 ('The Prudential Code').
- 1.3 This document sets out TfL's policies, practices and approach to risk management of its treasury management activities. It also sets out authorities and delegations for treasury management activities.

2 TFL TREASURY MANAGEMENT POLICY STATEMENT

- 2.1 TfL defines its treasury management activities as:
 - (i) the management of the organisation's investments and cash flows;
 - (ii) its financing, banking, money market, capital market and derivative transactions;
 - (iii) the effective control of the risks associated with those activities; and
 - (iv) the pursuit of optimum performance consistent with those risks.
- 2.2 TfL regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation.
- 2.3 TfL also acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable performance measurement techniques, always in the context of effective risk management.
- 2.4 The following sections detail TfL's overarching policies for treasury management, as recommended by the Code.

Borrowing Policy

- 2.5 As required by the Local Government Act 2003, at all times, the aggregate of all TfL's liabilities will be within the Authorised Limit set by the Mayor and adopted by the Board.
- 2.6 TfL's borrowing to fund capital expenditure is to be contained within the profile agreed with HM Treasury as part of the funding settlement. As confirmed by HM Treasury in a letter dated 2 March 2016, from the financial year 2016/17 onwards TfL is able to defer borrowing from one year to the next until needed, provided TfL informs the relevant HMT officials at least eight weeks ahead of the end of the financial year.
- 2.7 Under section 2(3) of the Local Government Act 2003, TfL may not, without the approval of HM Treasury, borrow other than in sterling. All borrowings will be in sterling unless HM Treasury grants approval to borrow in alternative currencies, in which case TfL may borrow in any currency approved by HM Treasury.
- 2.8 Under section 13(1) of the Local Government Act 2003 TfL may not charge any of its property as security for money which it has borrowed or which it otherwise owes. All money borrowed by TfL (local authority) shall be charged indifferently on all revenues of the authority. TfL subsidiaries may charge their property as security for money which they borrow or otherwise owe, pursuant to Section 4 of the Transport for London Act 2016¹.
- 2.9 Where TfL is issuing new debt, or refinancing existing debt, it may be necessary or commercially desirable to draw the new debt prior to the repayment of the debt being refinanced, which may result in a temporary increase in liabilities above the planned incremental borrowing for the year. Borrowing in excess of the planned incremental amounts agreed with central government is permitted, provided the position is temporary and that TfL remains within the Authorised Limit at all times (i.e. it reflects the temporary utilisation of headroom between the planned incremental borrowing and the legal limit on TfL's liabilities).

Investment Policy

- 2.10 All cash balances will be invested having regard to the relevant DCLG Guidance and the Mayoral policy on environmental and social impact.
- 2.11 The Chief Finance Officer and/or Director of Group Treasury² will set individual investment counterparty exposure limits, which will be within the limits approved by the Board in the Treasury Management Strategy.
- 2.12 The Chief Finance Officer and/or Director of Group Treasury will approve investment and derivative counterparties.
- 2.13 For investments benefitting from collateral arrangements, the counterparty exposure will not be counted as the full face value of the investment, but will be calculated based on the potential shortfall caused by any expected movement in the value of the collateral.

¹ Section 4 of the Transport for London Act 2016 will enter into force on a day appointed by TfL.

² Any reference to the Director of Group Treasury or Group Treasury includes any successor posts.

2.14 The exposure limit at the time of entering into the investment will be the limit for the life of the transaction. If a limit changes as a result of a change in rating or Potential Future Exposure factor during the life of the transaction, it shall not be considered a breach.

Liquidity Policy

2.15 The TfL Group's (excluding Crossrail) minimum level of cash and short-term investments is defined as at least 30 days' worth of annual operating expenditure. TfL will also have undrawn credit facilities in place to supplement the cash balances, as required.

2.16 TfL may borrow short-term for working capital purposes, provided the position is temporary and that TfL remains within the Authorised Limit at all times.

2.17 The Chief Finance Officer will be notified of any material changes in the usage of short-term sources of liquidity.

- 5.2 The principle on which this will be based is a clear distinction between those charged with setting Treasury Management Policies and those charged with implementing and controlling these policies, particularly with regard to the execution and transmission of funds, the recording and administering of treasury management decisions, and the audit and review of the treasury management function.
