

London Dial-a-Ride

Application form guidance notes

How to complete our application form

London Dial-a-Ride is a door to door transport service for disabled people who are unable (or almost unable) to use public transport services including buses, trams, London Overground and Underground trains, some or all of the time. This service is operated by London Buses Limited, which is an operating subsidiary of Transport for London (TfL). If you feel that you need the London Dial-a-Ride service, you need to complete our application form. Please note that you will only be eligible for London Dial-a-Ride if you live in a London borough.

- Write clearly in blue or black ink, and in BLOCK CAPITALS
- Please complete all areas that apply to you
- If you use a wheelchair, we will need to know the make and model, so that we can check that it is safe for our vehicles to transport it. If you do not provide this, we will have to send your form back
- If you cannot complete the form yourself, or have difficulty in getting to a photocopier, please contact us for advice or assistance on **0343 222 7777 (option 3)** or at **DAR@tfl.gov.uk**
- You can also contact the social services department of your local council for assistance
- If English is not your first language and you would like assistance using a telephone-based translator, please contact us on **0343 222 7777 (option 3)** to arrange for an interpreter
- We aim to process a fully completed application form under automatic eligibility within five working days of receiving it
- If you do not qualify under the automatic criteria, your application may take up to eight weeks to process, as we have to assess your eligibility. The more information you can provide within your initial application, the quicker we will be able to process your application

Applying under non automatic eligibility

We need written proof from a health or social care professional that you have the mobility problems as described on your application form that make it difficult or impossible to use general public transport services.

You will need to include with your application form:

- Any documents related to your medical condition/history which can help your application (for example if you take medication, a copy of a prescription for any medication you take)
- Confirmation of your medical condition by a health or social care professional (for example: GP, district nurse, occupational therapist, physiotherapist, consultant, social worker, care manager)

(Your GP may charge you for giving proof to support your application, so you could also ask another healthcare professional for evidence – see the list above)

- Confirmation of any benefits that you receive in relation to your disability - please send photocopies of all that you receive

NHS medical cards

As NHS medical cards are being phased out, as an alternative you can provide us with a letter from your GP on headed paper confirming your name, address and date of birth.

How to obtain copies of relevant documents

- Local libraries
