**Guidance note:** Boroughs should complete all fields identified with a red border. Only outputs from individual LIP funded schemes or packages of LIP funded schemes delivered during the course of the previous financial year should be reported using this form. Where applicable, values reported should relate to the net number of interventions (for example, if 25 cycle parking spaces were removed, but 75 added, the value reported should be 50 spaces). This also applies to interventions where values are required for distances (for example if 1km of bus lane is removed, but 3km added then the net value will be 2km).
