London Buses Safety Dashboard – Q2

Quarter Two Report – April - June 2019

About this report
This report provides an overview of key incidents and injuries for London Buses. The analysis in this publication is for the period up to the second quarter of the calendar year 2019. All data used is gathered from a TfL reporting system which all London bus operators are required to use to report all incidents to TfL. This includes incidents which have been attended by, or reported to, the Police, which are subsequently reported within STATS19 road safety data for London. The TfL reporting system provides data that helps monitor performance and identify where to focus our improvement activities.

Quarter Summary

- There were 1,278 injuries in Q2, three of which resulted in a fatality. Two fatals were collisions involving motorcyclists and one was a slip, trip, fall involving a passenger.
- Incidents involving buses accounted for 1,278 injuries this quarter, this is a decline of 22.7% in comparison to Q2 of 2018.
- In Q2, there were 2.3 injuries for every one million passenger journeys.
- The number of slip trip fall incidents resulting in injury equalled 638, a 15.6% decline against Q2 of 2018.
- Collisions accounted for 22.6% of all injuries; a 25.9% increase in comparison to Q2 2018.
- 7.3% of the reported 16,752 incidents in Q2 resulted in injury incident events.
