

Quarter Three Report – July - September 2017

About this report

This report provides an overview of key incidents and injuries for London Buses. The analysis in this publication is for the period up to the third quarter of 2017. All data used is gathered from a TfL reporting system which all London bus operators are required to use to report all incidents to TfL. This includes incidents which have been attended by, or reported to, the Police, which are subsequently reported within STATS19 road safety data for London. The TfL reporting system provides data that helps monitor performance and identify where to focus our improvement activities.

Quarter Summary

- There were 1,697 injuries in Q3, three of which resulted in fatalities.
- Injuries increased by 6.4% in Q3 when compared with Q2 and increased by 5.9% when compared with Q3 of 2016.
- 9.1% of the reported 18,066 incidents in Q3 resulted in injuries.
- 89.6% of injuries were minor, most of which were treated at the scene.
- In Q3, we saw 3.05 injuries for every one million passenger journeys.

Work programmes to improve bus safety

TfL is working closely with bus operators to improve the safety of the London bus network as set out in the following documents:

- Details of TfL’s Road Safety Plan, Safe Streets for London, is located on <https://tfl.gov.uk/corporate/safety-and-security/road-safety>.
- The TfL Bus Safety Programme can also be found on <https://tfl.gov.uk/corporate/safety-and-security/road-safety/bus-safety>.

Comments

This is a relatively new report and we are interested in understanding whether its format helps you understand the safety performance of the bus network. If you would like to make a comment on this report or suggest ways we can improve it, please send us an email to: safetycomments@tfl.gov.uk. Requests for additional information should be addressed to TfL Customer Services, details are available on www.tfl.gov.uk.
