For further information
Transport for London (TfL) produces a range of display stands, all of which are endorsed by its public transport networks (modes) or other operating units.

This design standard has been created to show the rules that must be followed when producing display stands on behalf of TfL.

More information on TfL design rules are available via the TfL website:

New Johnston
The typeface of TfL is New Johnston, which should be set in mixed upper and lower case. New Johnston is the only typeface to be used for display stands.

Headings
These are set in New Johnston Medium mixed upper and lower case.

Body text
Body text should be set in New Johnston Light mixed upper and lower case.

Copyright
New Johnston is the exclusive property of TfL. If you wish for an outside supplier to access the typeface please direct them to the TfL website: tfl.gov.uk/corporatedesign
1.1 Typographic policy

In consultation with the Royal National Institute for the Blind (RNIB), TfL has developed a code of practice for setting type so that it is legible to those with visual impairment.

The main directives of this policy as applied to display stands is set out as follows:

- Text should always be set in mixed upper and lower case (never all upper case - even in headings)
- The minimum point size for body copy is 50pt
- Text should always be ranged left (never justified, centred or ranged right)
- Do not use italics
- Do not use drop caps
- To emphasise a word, use a different type weight
- Ensure good, legible colour contrast between text and background colour
- Do not adjust the character spacing of the font
- Do not adjust line spacing (leading)
- Do not indent the first line of a paragraph, but use additional leading to achieve clear separation of paragraphs

- Bullet point indentations are allowed so long as text follows the indent
- Do not place text over an image unless the area on which the text is to be placed is flat and clear (such as a clear blue sky)
- The use of terminology on all material must comply with the TfL Editorial standards [tfl.gov.uk/corporatedesign](http://tfl.gov.uk/corporatedesign)
Each display stand must be correctly branded with a roundel (only one roundel is ever to appear on a piece), Transport for London logotype and MAYOR OF LONDON logotype.

Where several display stands appear together then each stand is to be separately branded.

For further branding examples please see section 4 of this document.
Each transport mode has its own individual roundel. The value of the roundel itself can hardly be overestimated. It is one of the world’s best known symbols and carries a tremendous weight of goodwill. In order to preserve its value, the rules in this document for its reproduction and application must be strictly adhered to.

Roundels are to be applied for by design agencies only via the TfL website: tfl.gov.uk/corporatedesign
2.1.1 Roundels continued

Public Carriage Office roundels
The Public Carriage Office has, for legal reasons, three different roundels.

Taxi/Private Hire
The joint Taxi/Private Hire roundel should be used for Public Carriage Office joint taxi and private hire corporate publications.

Taxi
The Taxi roundel is to be used for any specific licensed London Taxi (motor Hackney carriages) corporate publications.

Private Hire
The Private Hire roundel is to be used for any specific Private Hire Vehicle corporate publications.
2.2 Transport for London logotype

Transport for London logotype
The ‘Transport for London’ logotype is to appear alongside the roundel. No matter which modes’ roundel is displayed, it is always the ‘Transport for London’ logotype that is displayed alongside it.

The cap height of the ‘Transport for London’ logotype must always equal the depth of the roundel bar. It is to be displayed in New Johnston Medium, mixed upper and lowercase.

It must be set in a single line and be ranged to the left of the roundel.
2.3 MAYOR OF LONDON logotype

MAYOR OF LONDON logotype
On all printed documents, the Mayoral endorsement should be displayed in a fixed proportion to the roundel as shown.

Size
The capital-letter height of the ‘MAYOR OF LONDON’ logotype should measure the same as the depth of the roundel bar. It is to be displayed in New Johnston Bold, all upper case.

Colour
The Mayor’s endorsement should always appear in Corporate blue (Pantone 072), on outputs for all modes.
Modal colours
This page identifies the corporate colour for each mode within TfL.

The colours refer to colour reproduction using the Pantone Matching System and CMYK process on coated or uncoated paper.
