TREASURY MANAGEMENT POLICIES

TREASURY MANAGEMENT POLICIES

1 BACKGROUND

- 1.1 The establishment and review of a policy for TfL in relation to treasury management is a matter reserved to the Board. This document (including the Treasury Management Policy Statement, Treasury Management Policies, Treasury Authorities and Delegations and Treasury Management Practices) is therefore subject to Board approval.
- 1.2 This document has been prepared having regard to the Local Government Act 2003 and the Local Authorities (Capital Finance and Accounting) Regulations 2003 (as amended), as well as the key recommendations of (i) the Code of Practice and Cross-Sectoral Guidance Notes for Treasury Management in the Public Services (the 'Treasury Management Code') issued by the Chartered Institute of Public Finance & Accountancy (CIPFA) and last updated in 2017, (ii) the Prudential Code for Capital Finance in Local Authorities (the 'Prudential Code') issued by CIPFA and last updated in 2017, and (iii) the Statutory Guidance on Local Authority Investments (the 'Investments Guidance') issued by the Ministry of Housing, Communities and Local Government (MHCLG) in 2018, with respect to treasury investments.
- 1.3 This document sets out TfL's policies and practices, including approach to risk management of its treasury management activities. It also sets out authorities and delegations for treasury management activities.

2 TREASURY MANAGEMENT POLICY STATEMENT

- 2.1 TfL defines its treasury management activities as:
 - (i) the management of the organisation's investments and cash flows;
 - (ii) its financing, banking, money market, capital market and derivative transactions;
 - (iii) the effective control of the risks associated with those activities; and
 - (iv) the pursuit of optimum performance consistent with those risks.
- 2.2 TfL regards the successful identification, monitoring and control of treasury risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.

- 2.3 TfL also acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable performance measurement techniques, always in the context of effective risk management.
- 2.4 The following sections detail TfL's overarching policies for treasury management, including high level policies for borrowing and investments, as recommended by the Treasury Management Code.

Borrowing Policy

- 2.5 As required by the Local Government Act 2003, at all times, the aggregate of all TfL's borrowings will be within the Authorised Limit set by the Mayor and adopted by the Board.
- 2.6 TfL's borrowing to fund capital expenditure is to be contained within the profile agreed with HM Treasury. As confirmed by HM Treasury in a letter dated 2 March 2016, from the financial year 2016/17 onwards TfL is able to defer borrowing from one year to the next until needed, provided TfL informs the relevant HM Treasury officials at least eight weeks ahead of the end of the financial year.
- 2.7 Under section 2(3) of the Local Government Act 2003, TfL may not, without the approval of HM Treasury, borrow other than in Sterling. All borrowings will be in Sterling unless HM Treasury grants approval to borrow in alternative currencies, in which case TfL may borrow in any currency approved by HM Treasury.
- 2.8 Under section 13(1) of the Local Government Act 2003, TfL (the local authority) may not charge any of its property as security for money which it has borrowed or which it otherwise owes. All money borrowed by TfL (the local authority) shall be charged indifferently on all revenues of the authority. TfL subsidiaries however may charge their property as security for money which they borrow or otherwise owe, pursuant to Section 4 of the Transport for London Act 2016¹.
- 2.9 Where TfL is issuing new debt, or refinancing existing debt, it may be necessary or commercially desirable to draw the new debt prior to the repayment of the debt being refinanced, which may result in a temporary increase in liabilities above the planned incremental borrowing for the year. Borrowing in excess of the incremental amounts agreed with Central Government is permitted, provided the position is temporary and that TfL remains within the Authorised Limit at all times (i.e. it reflects the temporary utilisation of headroom between the planned incremental borrowing and the legal limit on TfL's liabilities).

Investment Policy

- 2.10 All cash balances will be invested having regard to the relevant Investments Guidance, as applicable to treasury investments, and the GLA Responsible Investment Policy.
- 2.11 If any investment or derivative limit applicable to a counterparty under the Treasury Management Policies or Treasury Management Strategy changes while TfL has an

outstanding investment or derivative with that counterparty, it will not be considered a breach of these limits. TfL may seek to bring its exposure down to within the revised limits, or at the Corporate Finance and Strategy Director's discretion, may decide to allow an investment or derivative to run its course for economic reasons.

Liquidity Policy

- 2.12 The TfL Group's (excluding ring fenced subsidiaries; Crossrail Limited, London Transport Insurance (Guernsey) Limited and London Transport Museum Limited) minimum level of cash and short-term investments will be, on average, at least 30 days' worth of forecast annual operating expenditure. TfL may also have undrawn credit facilities in place to supplement the cash balances, as required.
- 2.13 TfL may borrow short-term for working capital purposes, provided the position is temporary and that TfL remains within the Authorised Limit at all times.
- 2.14 The statutory and managing Chief Finance Officers² will be notified of any material changes in the usage of short-term sources of liquidity.

- 11.2 The principle on which this will be based is a clear distinction between those charged with setting Treasury Management Policies and those charged with implementing and controlling these policies, particularly with regard to the execution and transmission of funds, the recording and administering of treasury management decisions, and the audit and review of the treasury management function.

- 15.1 TfL is alert to the possibility that it may become the subject of an attempt to involve it in a transaction involving the laundering of money.
