Accessibility information

Some stations on the Metropolitan line are accessed via stairs. If you require step-free access or have another accessibility requirement, there are a number of resources available to help you to plan an accessible journey.

There are a range of options available at tfl.gov.uk/journeyplanner which allow you to plan journeys which are step-free between the street and the platform or the street and the train, or avoiding stairs or escalators. It covers all public transport in the London area.

The **Step-free Tube guide** shows all Tube, DLR and London Overground stations where it is possible to move from street to platform, or between platforms, without using stairs or escalators. It also shows the size of the gap between the train and the platform at these stations. This guide can be found at tfl.gov.uk/accessguides.

Station information for every station is available on the TfL website. This shows whether the station has step-free or escalator access, whether there is level access onto the train, and if so, where this is located on the platform.

Metropolitan line trains have wheelchair spaces in the middle of the train. Other carriages have multi-purpose areas which are suitable for pushchairs, luggage and customers travelling with assistance dogs. The trains have automated audio and visual information.
