Date: 17 March 2016

**Item: Treasury Management and Derivative Investments
Policies 2016/17**

This paper will be considered in public

1 Summary

- 1.1 The Board is asked to approve the proposed TfL Treasury Management Policy and Treasury Management Practices (together, the TM Policy), and the proposed TfL Group Policy relating to the use of Derivative Investments for 2016/17.
- 1.2 On 2 March 2016, the Finance and Policy Committee endorsed the recommendations in this paper.

2 Recommendations

- 2.1 **The Board is asked to note the paper and approve:**
 - a) **the proposed TfL Treasury Management Policy and Treasury Management Practices for 2016/17 at Appendix 1;**
 - b) **that in relation to the existing TfL Treasury Management Policy and Treasury Management Practices 2015/16, the annual report on the performance of the treasury management function, the effects of decisions taken and the transactions executed in the past year, and on any non-compliance with the organisation's Treasury Management Policy Statement and Practices is submitted to the Finance and Policy Committee, rather than the Board; and**
 - c) **the proposed TfL Group Policy relating to the use of Derivative Investments in Appendix 2.**

3 Treasury Management Policy Statement and Treasury Management Practices

- 3.1 The TM Policy has been prepared in accordance with the Chartered Institute of Public Finance and Accountancy (CIPFA) Treasury Management in the Public Services Code of Practice (the Code) (updated in 2011) and the revised investment guidance (effective 1 April 2010) issued by the Department for Communities and Local Government (DCLG guidance).

- 3.2 CIPFA recommends that all public service organisations adopt a series of clauses for effective treasury management. Such clauses include the need for public service organisations to create and maintain:
- (a) a treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities; and
 - (b) suitable treasury management practices, setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.
- 3.3 The revised TM Policy is attached at Appendix 1 (with changes highlighted from the TM Policy approved by the Board in March 2015). There are no substantial changes proposed to the document, the proposed changes are mostly minor amendments:
- (a) the reporting requirements in paragraph 6.2 of the Treasury Management Practices have been re-ordered and amended to reflect the decision to combine the Managing Director, Finance role with the Chief Finance Officer (CFO) role, other amendments are mainly for clarification purposes;
 - (b) it is proposed in paragraph 6.2 that the annual report on the performance of the treasury management function, on the effects of decisions taken and the transactions executed in the past year, and on any non-compliance with the organisation's Treasury Management Policy Statement and Practices is produced for the Finance and Policy Committee instead of the Board, due to the specialist financial nature of the report; and
 - (c) it is proposed that the specific requirement in paragraph 6.2 to produce weekly reports to the Chief Finance Officer and periodic treasury management updates in the Business Management Review is replaced with a general requirement in paragraph 6.3 to produce regular monitoring reports on the treasury management activities and risks. This change would allow enable any potential changes in the internal reporting processes to be captured.
- 3.4 Following the proposal in paragraph 3.3(b) above, in respect of 2015/16 it is similarly recommended that the 2015/16 annual report on the performance of the treasury management function, on the effects of decisions taken and the transactions executed in the past year, and on any non-compliance with the organisation's Treasury Management Policy Statement and Practices will now be submitted to the Finance and Policy Committee rather than the Board, due to the specialist financial nature of the report. This effectively amends the existing requirement in paragraph 6.2 of the TfL Treasury Management Policy and Treasury Management Practices 2015/16 that such report would be produced for the Board.
- 3.5 Under the Code, TfL is required to adopt Prudential Indicators and Treasury Management Indicators (Prudential Indicators) that support planned capital

expenditure, borrowing and treasury management activities. TfL's Prudential Indicators are the subject of a separate item on the agenda for this meeting.

- 3.6 The TM Policy requires TfL to have a Treasury Management Strategy (TMS) approved by the Board on at least an annual basis. The TMS for 2016/17 is included as a separate item on the agenda for this meeting.

4 TfL Group Policy on Derivatives

- 4.1 The TfL Group Policy relating to the use of Derivative Investments (Derivatives Policy) must be reviewed annually.
- 4.2 The policy has been reviewed and no material changes to the existing policy are proposed. The document has been updated to reflect the combination of the Managing Director, Finance role with the Chief Finance Officer (CFO) role. A copy of the proposed policy is included in Appendix 2.

5 Views of the Finance and Policy Committee

- 5.1 On 2 March 2016, the Finance and Policy Committee considered a similar paper. The Committee raised no specific issues for the attention of the Board and endorsed the recommendations in this paper.
