## Identifying risks

Roads are used by different people in different ways. Look at the situations listed below. Beside each one, note the risks involved. Decide what advice you would give and write it in the space.

Problem	Pedestrian risk	Driver or cyclist risk	Decide what advice you would give and write it in the chart
<p>A local primary school have noticed an increase in traffic passing their gates during the last two months.</p> <p>The traffic is particularly bad between 8.00 and 9.30 on week days.</p> <p>At least ten parents have made complaints about the speed at which some vehicles are travelling.</p>			
<p>The local council have just built a new play park across the road from the Rose Hall Estate for the local children to play safely on. However, the road is regularly used by lorry drivers as a shortcut around the main town centre.</p> <p>There are also plans to build a supermarket nearby which will significantly increase the traffic.</p>			
<p>Peter's elderly mum has always been very independent but recently her eyesight and hearing has deteriorated. She needs help to cross the road to access the shopping centre opposite their house.</p> <p>The road has a lot of parked cars and it is often hard to get a clear view of on-coming traffic.</p> <p>There have been two accidents in the last month on this road alone.</p>
